

July 16, 2008

In March of 2008 I made a decision to sell my townhome that I had lived in since 1991 and buy something new! A colleague of mine referred me to Pete Doty. I thought the name was kind of catchy and when the face matches the name you know you probably have a winner!

Pete and his staff assisted me in the marketing and **sale** of my townhome within a couple of months of listing. He also assisted me with the purchase of my new home. He referred me to a great lender and a wonder title company that made everything go more smoothly then I could have imagined.

It is so difficult to trust folks these days. At the time I met Pete I had just recently lost my Mother and was going through a plethora of emotions. The sale of my property happened so quickly and the purchase of my new home (that I just adore) – if it hadn't been for Pete and his more then qualified group of individuals I am sure I could have made a bad decision. They all stayed on top of things for me and I appreciate getting the opportunity to know them all.

Kind Regards,

Carol C
